Spee-Dee Delivery proudly announces Missouri and Kansas expansions effective Monday, April 7, 2025

Spee-Dee Delivery began servicing the Kansas City market last April. Thanks to the positive feedback and support we've received from our customers, we have decided to further expand our footprint in Missouri and Kansas. Customers can begin shipping into the three-digit ZIP Code prefixes 634-635, 644-646, 650-653 (Missouri) and 660, 666 (Kansas) **effective with their April 7 parcel and pallet shipments.**

VERY IMPORTANT: If your company utilizes Spee-Dee Ship Software **you must use rates version RATES2025C** in order to ship into the expanded service area beginning on April 7 (rates version can be found on the bottom of shipping manifest). Expansion ZIP Codes will automatically become enabled in the software on April 7. Not using the current version? Simply update TODAY so you don't miss out! Current Spee-Dee Ship Software is available to download at SpeeDeeDelivery.com/update. Or reach out to Spee-Dee Delivery's IT Department at (800) 862-5578 x 500 for assistance TODAY! Companies that utilize a third-party manifest vendor are encouraged to reach out to their provider to ensure the new ZIP Codes have been added to their shipping capabilities effective April 7.

We are thrilled to introduce **Spee-Dee shipit** powered by *Dispatch Science*. This innovative cloud-based Transportation Management System (TMS) will enhance the customer experience and deliver features requested by shippers. Be sure to watch for communication about **Spee-Dee shipit** in the coming days. Login instructions and support information will be forthcoming to shippers to ensure a smooth transition.

We are pursuing new shippers within our expanding footprint. If you have affiliated companies or vendors in the expansion ZIP Codes, and they may be interested in setting up a shipping account, please have them reach out to our Customer Relations team at sales@speeedelivery.com or (800) 862-5578. You can also provide us with their contact information, and we would be happy to reach out to them.

Standard Account shippers will receive an updated Days In Transit map at their shipping location, delivered by their Spee-Dee Delivery driver, the week of March 31. In the meantime, customers can visit SpeeDeeDelivery.com/maps to view or download the map specific to their shipping location.

Spee-Dee LTL and On-Call Pick-Up Service shippers have unique shipping characteristics (often multiple shipping locations) that may not necessarily correspond with one specific Days In Transit map. These customers will not be sent a map. LTL and On-Call shippers may visit SpeeDeeDelivery.com/maps to view or download maps relevant to their shipping characteristics.

Walk-In Account shippers will have the ability to obtain a Days In Transit map from their Spee-Dee Delivery walk-in counter location beginning the week of March 31. They may also visit SpeeDeeDelivery.com/maps to view or download a map specific to their shipping location.

Our Delivery Area Surcharge (DAS) ZIP Code list as well as all Zone Charts have been updated to include the new ZIP Codes. Visit SpeeDeeDelivery.com/rates to view or download the updated information.

Thank you for being a valued partner. We appreciate the opportunity to better serve our customers through service enhancements and technology upgrades. Please don't hesitate to reach out to our Customer Relations Department at sales@speeedelivery.com or (800) 862-5578 if you have any questions or would like more information.
